

PRIVACY POLICY – THE INTERNATIONAL BIOGEOGRAPHY SOCIETY

The International Biogeography Society (IBS) promotes collaboration between scientists and encourages education about biogeography. We work in partnership with you to improve the scientific understanding of the biological world. To do this we need your trust.

Our privacy policy is intended to provide transparency into our privacy policies and practices in a way that is easy to navigate, read, and understand. We are dedicated to treating your personal information with care and respect as is the tradition with charitable organizations around the world. Your generosity supports us and the many causes we aim to jointly assist. Should you have any questions or concerns please contact Karen Faller, Society Executive, at biogeography.ibs@gmail.com

When you visit this website we collect information that your browser sends to us such as your computer's Internet Protocol ("IP") address, browser type, browser version, the pages of our Site that you visit, the time and date of your visit, the time spent on those pages and other statistics. We use a third party service (Google Analytics) to collect, monitor, and analyze this data. This information helps us to improve. We honor "do not track" signals and do not track when your browser's do not track (DNT) mechanism is in place.

In addition, we may at times request from you and collect from you certain personally identifiable information that can be used to contact or identify you such as your name, email address, and research interests. We may use your Personal Information to contact you with information on your research interests, announcements of changes in our policies, or other information we believe that you will find useful but aim to do so in a way that is consistent with building trust and protecting your personal information.

Aside from this collecting and sharing of information necessary for the basic functions of the Site we do not share your personal information with others and NEVER sell your information to others.

As we have written above, the security of your personal information is important to us, but remember that no method of transmission over the Internet, or method of electronic storage, is 100% secure. While we strive to use commercially acceptable means to protect your personal information, we cannot guarantee its absolute security.
